

# Innopolis Library Media Keeper – Running details.

Bot uses two tokens: one is for Debugging (@twelveassist\_bot) and another is for production (@ILMKbot). Both of two tokens are in Config/config.py file.

Bot has 3 menus available for User: /enroll, /medias and /me.

- /enroll – Registers new users
- /medias – Shows the list of Medias
- /me – Personal information

Also, bot has a specific menu for Librarian and Admin: /librarian  
There you can find more menus:

- /users – opens menu of all users
- /delete\_copy %copy\_id% - allows to delete a copy
- /log – opens Log
- /requests – Opens Registry Requests menu
- /return – Opens Return menu
- /actions – Sends a textfile with a list of all actions happened while system was running

Everything else is very intuitive, if you have any questions, you can write to any member of our team: @man12102, @simplearink, @broccoli\_nastya, @Oydinosh
