

Innopolis Library Media Keeper

Contribution

Our project was developed by four team members:

1. Mikhail Tkachenko
 - a. Implementing queues
 - b. Renew system
 - c. Merging code^{*}
2. Arina Kuznetsova
 - a. Database optimization
 - b. Implementing Debtors menu
 - c. Implementing Outstanding request
3. Maxim Burov
 - a. Rewriting User class (according to new requirements)
4. Oydinoy Zufarova
 - a. Fine system (JobQueue)
 - b. Drawing diagrams

^{*} This is the reason, why number of commits is not equal between all members. Most of merges were done manually without GitHub.
