Innopolis Library Media Keeper

Contribution

Our project was developed by four team members:

1. Mikhail Tkachenko
   a. Integrating new database system
   b. Solving sessions issue
   c. Merging code*
2. Arina Kuznetsova
   a. Addition of Users
   b. Deletion of Users
   c. Modifying of Users
3. Maxim Burov
   a. Addition of Medias
   b. Deletion of Medias
   c. Modifying of Medias
4. Oydinoy Zufarova
   a. Implementation of Return system
   b. Drawing diagrams

* This is the reason, why number of commits is not equal between all members. Most of merges were done manually without GitHub.
